

BREABACH

Technical Requirements 2014

FOH ENGINEER - IAIN THOMSON +447734955142 iainpthomson@gmail.com

PA system to be 3 / 4 way active, of high quality and capable of even coverage to the whole venue.

Preferred brands D&B, Meyer, L Acoustics etc. Mixer - Preferred desks Midas Pro series, Soundcraft VI Series.

If mixer is analogue then 8 channels of high quality compression should be provided (NO BEHRINGER!)

Mix position: This is the important one! The mixing desk must be in the same room as the audience,

No mix from control booth (behind glass) / side of stage etc.

31 band graphic eq must be present on all PA outputs and accessible by the engineer at all times.

We require 1x High Quality Reverb unit, 1x Delay Unit.

In house engineer(s) to be present for the duration of soundcheck and performance.

Channel List / Stage plot as below. If possible please have this patched in for our arrival.

We carry 6 channels (5 mixes + cue) of stereo in ear transmitters. Where possible (depending on mixer)

we will mix monitors from FOH. Iain will advance this before the show.

Please make sure there are adequate returns from FOH (ideally 12, but we can work with 6 if need be.)

Our transmitters are GB Band 606-648 MHZ. Please advise in advance of any local frequency restrictions (**Outwith UK only**)

Please supply a copy of venue spec to email address above on receipt of this rider.

Please do not hesitate to get in touch with any questions, and we look forward to a great show!
